O'Sullivan, SB and Schmitz, TJ. Physical Rehabilitation ...

An orthosis is an external appliance worn to restrict or assist motion or to transfer load from one area of the body to another. The older term, brace, is a synonym. A splint connotes an orthosis intended for temporary use. An orthotist is the health care professional who designs, fabricates, and fits orthoses for the limbs and trunk, and a pedorthist is the health care professional who designs ...
